

Application No.: 10/601,240

AMENDMENTS TO SPECIFICATION

Please replace the original specification with the amended specification, which is attached herewith as appendix, in which typographic errors and minor grammar errors are corrected. Description of the reference character "61" is also added to remove the objection to the drawings in which the reference character 61 is included but not mentioned in the specification. Description regarding "rubber 41B" is also added in the specification to explain arrangement and function of the "rubber 41B", in order to remove the objection to the specification regarding the "rubber 41B".
